Non-contact levitation and inversion.
"The telekinetic power was very explosive. Here the 'force' has managed to hold the table levitated and inverted, giving a clear unblurred image. A truly remarkable feat."

The lecture will be profusely illustrated with photographs and video clips. Throughout, Walter will draw upon his experience of the phenomenon since 1998 as a member of a Canadian Spiritualist home circle that has observed strong psychokinetic table movements, including lifting, rocking, and pivoting of a square, 21-pound table. The group was featured in the "Conjuring Philip" documentary that has aired on Vision TV since January 2007. Walter will:

- discuss the role of spirit controls in physical phenomena and table-lifting as a means of communication
- show the drawing of the main spirit guide Grey Cloud by British psychic artist Patrick Gamble
- describe the best evidence of psychokinesis observed in the Canadian group
- explain conditions favourable to the production of table phenomena, as well as those conditions that inhibit it; and
- discuss the significance of the observed phenomena and outline some possible next steps in the study of it.

Duration: 90 minutes including time for questions.

This presentation was originally prepared in 2006 for the New York-based Parapsychology Foundation, founded by Eileen J. Garrett in 1951.
